## APPLICATION FOR PERMIT TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office	
Returned to applicant for correction	
Corrected application filed	
Map filed MAR 1 7 1978 under 35156	
The applicant Sunoco Energy Development Company Suite 1500	
12700 Park Central Pl., Box 9 , of Dallas Street and No. or P.O. Box No. City or Town	
Texas (75251), hereby make application for permission to appropriate the State and Zip Code No.	public
waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of inco	rpora-
tion; if a copartnership or association, give names of members.)	
Incorporated January 2, 1975 in the State of Delaware	
1. The source of the proposed appropriation is Underground Well No. 7  Name of stream, lake or other source.	
3.05	
2. The amount of water applied for is	
(a) If stored in reservoir give number of acre-feet	re-feet
3. The water to be used for Industrial  Irrigation, power, mining, manufacturing, domestic, or other use.	
4. If use is for:	
(a) Irrigation (state number of acres to be irrigated)	
(b) Stockwater (state number and kinds of animals to be watered)	
(c) Other use (describe fully under "No. 12. Remarks")	
(d) Power:	
(1) Horsepower developed	
(2) Point of return of water to stream	
5. The water is to be diverted from its source at the following point: SEISEI Section 20. T24	N
R37E, MDB&M, or at a point from which the NW corner of Section  Describe as being within a 40-acre subdivision of public survey, and by course and distance to a section corner. If on unsurveyed lan	5 <u>.</u>
T24N, R37E, MDB&M, bears, N $11^{\circ}$ 52' 27" W 20753.4 feet.	
6. Place of use Section 32, T25N, R37E, MDB&M, Sections 5,6,7,8,17,18,  Describe by legal subdivision, if on unsurveyed land it should be so stated.	19
20, T24N, R37E, MDB&M Sections 12,13,24, T24N, R36E, MDB&M.	
······	
7. Use will begin about January 1 and end about December 31, of each year.  Day and Month Day and Day and Month Day and	
8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plan	ıs and
specifications of your diversion or storage works.)Drill_well_to_approximately_600	<b>2</b>
feet. install casing and cement back to surface to protect fres	<u></u>
State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduit water. zones. Hot water or steam will flow through pipeline to	
electric plant.	

9.	Estimated cost of works \$500,000							
10.	0. Estimated time required to construct works							
11.	Estimated	time require	d to complete the	application to benefi	cial use	Five Years		
12.	Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.							
	This application is for a geothermal well with a production of 2.1 million gallons per day. The withdrawal will be 2352 acre feet per year; however, the high temperature water would be flashed with the net effect of 210,000 gallons per day being beneficially used and the remaining water returned to the reservoir so only 235 acre feet per year is actually used. This application is comingled with the other applications.

	This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:  This permit is issued subject to existing rights. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the amount of water actually placed to beneficial use. It is also understood that this right must allow for a reasonable lowering of the static water level. If the well is flowing, a valve must be installed and maintained to prevent waste. A substantial weir or other type of measuring device must be installed and measurements of water use kept. This source is located within an area designated by the State Engineer, pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times.  There are to be no perforations in the well for at least the first 5000 feet. The well is to be cemented from the 5000 foot level to the surface to protect fresh water zones. The total water-steam equivalent to be withdrawn from this geothermal ground water reservoir under Permits 35156 through 35191 is limited to 2352 acre-feet of water annually.  This permit is further issued subject to the condition that the power or energy generated by the beneficial use of this water or steam is subject to recapture and use within the boundaries of the State of Nevada when the need arises.
